5. New Business (Continued from October 23, 2017): Action on Resolution 24 - Consider a resolution:

a. Approving an amendment to the Block D license agreement to allow for a portion of the site to be used for a construction laydown area for development of Block C and extend the license agreement for parking on Block D, to April 30, 2020, plus two six-month extensions.

b. Authorizing the Co-Executive Directors to approve the assignment of the Block D license agreement to an affiliate of Developer.

**CEQA:** A Final EIR for the Pleasant Hill BART Station Area Specific Plan was adopted on October 6, 1998. A Mitigated Negative Declaration for the Preliminary Development Plan and rezoning of the subject site was adopted November 5, 2002. Since impacts of the Final Development Plan were addressed in the Mitigated Negative Declaration adopted in 2002, an addendum to the Mitigated Negative declaration was adopted May 24, 2005 with approval of the Final Development plan and subdivision. A subsequent addendum for the Preliminary Development Plan and Final Development was approved on August 24, 2015 in connection with the approval of the license agreement. The temporary parking involves extending the existing use of the site as surface parking for BART patrons, while the construction laydown activities implement a portion of the project approved in 2005 and previously addressed in the CEQA action at that time. No subsequent environmental review under the California Environmental Quality Act ("CEQA") is required because (a) none of the circumstances under CEQA Guidelines 15162 have occurred since the County Board of Supervisors approved the preliminary development plan and final development plan for the Transit Village project in 2005 and the Housing Development on Block C and license agreement on Block D in 2015; (b) the amendment to the license agreement is also exempt under California Government Code Sections 15304, 65457 and California Public Resources Code Section 21155.4.

Resolution 24 was approved (M/S Allen/Keller, 4-0-0)
