

Piepho doing well

As a longtime follower of county affairs, I want to commend Mary Piepho on the job she's doing leading the county supervisors. I have the honor to be County Clerk/Recorder Steve Weir's brother, and I know from experience that trying to do a good job in public office is tough, because no one can please everybody.

Piepho has her priorities right and is facilitating board efforts to identify those critical issues that must be resolved in rational order. The board has to balance the need to get back on track fiscally while seeing to it that essential services for those who must depend on the county are not cut off.

It's easy to be impatient and demand that long-standing problems be solved quickly, but the truth is that putting our county house in order will require time and strong support for those tackling the job.

I applaud Piepho for the direction in which she's leading the board and county administration.
