

Bay Point Municipal Advisory Committee

Sterling Stevenson, Chair

Federal Glover, District V Supervisor

*Debra Giles, Administrative Support
3105 Willow Pass Road
Bay Point, CA 94565*

Respectfully submitted by: Debra Giles

*The Bay Point Municipal Advisory Committee serves as an advisory body to the
Contra Costa County Board of Supervisors and the County Planning Agency.*

Record of Actions

7:00 pm

Tuesday, June 1, 2010

Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt were present.
Council Member Tremaine was absent.

Others present: Ed Diokno of Supervisor Glover's office, Maureen Toms of County Redevelopment, Lt. Fernandez of the Sheriff's Dept., Officer Eric Brewer of the California Highway Patrol, Karen Ustin of Delta Diablo Sanitation District, Michael Baroman-Coggins, Executive Director of Loaves and Fishes and Pastor Dillingham of the Community Baptist Church

- 1. Call to Order / Pledge of Allegiance** led by longtime resident, Mrs. Vivian Lisa.
- 2. Approval of June 1, 2010 Agenda**

Motion made by Councilwoman Mason to approve the June 1, 2010 agenda with the adjustment of moving item 6b to be item 2a due to scheduling conflict of presenter. Seconded by Councilwoman Garcia. Motion carried 6 – 0; Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt voting "yes"; Council Member Tremaine absent.

2a. Ms. Karen Ustin, Business Services Director of Delta Diablo Sanitation District to discuss the rate hike of 4.2%

Ms. Karen Ustin introduced herself, distributed handouts to the Board, and stated like other public agencies one of the key philosophies is that their rates, for water treatment, collection, etc., are based on the cost of providing service. She stated the key input to determining revenue requirements and the resulting rates are their adopted operating budget (second year of a three year budget), as well as their five year improvement program. She stated they do strive to keep

their rates and rate adjustments as low as practical while still meeting their service levels, including providing very strong customer service; and they also have very stringent regulatory requirements that must be met.

Ms. Ustin stated there are a number of components to the rates, particularly Bay Point including:

- In Bay Point they operate and maintain our collection system, unlike Pittsburg and Antioch
- Treatment and transport of waste water

Composed of Operating Budget, Capital Improvements that are not related to growth, and Capital Projects to renew and replace infrastructure.

Ms. Ustin stated the system in Bay Point, has many pipes that have been in place since the early 1960's, and that is why they are anticipating that over the next 25 years they will be going into an extensive rehabilitation/replacement program as they obviously want to replace infrastructure before it fails.

Ms. Ustin reviewed the proposed rate adjustments including:

- The annual service charge, which is the same for all three communities for treatment, proposed to increase by \$10.24 a year; a 4.8% increase.
- The annual Bay Point annual service proposed rate increase includes \$3.08; a 3% increase.
- For Bay Point that would mean an annual increase from \$315.54 to \$328.86, or if charging monthly it would be an increase of \$1.11 a month.
- Most folks pay on a semi-annual basis as these are charged on property taxes.

Ms. Ustin stated that when you look at both sides of the equation, both the treatment and the collection system, Bay Point has the lowest charges overall of the three communities; basically because Delta Diablo charges a lower rate for the collection system. She stated they take a lot of pride in that their service areas, they are able to operate their collection system pretty efficiently, resulting in these overall lower rates.

Ms. Ustin stated they also provide, among other services, street sweeping and recycling.

There was a short discussion regarding other service providers in other regions; their size compared to the rates they charge.

Ms. Ustin stated they do a rate analysis every year, and their analysis for the current year resulted in lower adjustments than what was projected last year; so they do look, and not just automatically raise it to what was projected last year. She stated they had actually projected a 4.9% increase last year for this fiscal year 2011, and what they are recommending to their board is 4.2%. She also shared some statistics from the National Association of Clean Water Agencies, and they are projecting an average increase in fiscal year 2011 nationally, for the types of services Allied Waste provides, to be 8.1%.

Ms. Ustin stated her whole point is they really are trying to keep their rates as reasonable as they possibly can while still providing good service.

Mr. Mark Sullivan asked about a chart that was shared at a meeting like this about 8 years ago, showing problem areas in Bay Point that were to be addressed in the five year plan at that time, and a 'red' area on the chart that is in the area where he lives that has never been repaired. He

asked if Ms. Ustin had seen this chart and put it up against the current five year plan for improvements, to see how much had really been done. Mr. Sullivan stated he would share a copy of the chart and report with the MAC Board and would be happy to get Ms. Ustin a copy also.

Ms. Ustin stated she would appreciate a copy of that chart and report to have a discussion with their head of maintenance.

Councilwoman Zumwalt stated it would be helpful to the MAC if Ms. Ustin had a Check & Balance report, based on Mr. Sullivan's past reports, that can tell us what streets were upgraded and what streets still need improvements.

Ms. Norma Siegfried asked how much more of a cost it would be for them to add water to the tanks of the street sweeper, especially in the summer as some streets have no sidewalks and it just stirs up the dirt and dust and throws it.

Councilwoman Zumwalt stated she had also complained about the same thing to the local representative, Angela, and was told she would look into it.

Ms. Ustin state she would also follow-up on it with their maintenance person; that it sounds like the contractor might be trying to cut costs.

Councilwoman Magleby shared how easy it is to dump recyclables at the Delta Diablo Station, and recommended it to everyone for getting rid of their toxic garbage i.e. TVs, computers, etc.

3. Consent items

a. Approval of monthly Recording Secretary invoice - \$120.00

b. Approval of Record of Actions of May 2, 2010

c. Approve invoice from Ambrose Recreation & Park District for rental of their facilities

After some clarification from Mr. Diokno regarding discussion of a rental issue later in the agenda:

Motion made by Councilwoman Garcia to approve the Consent Items. Seconded by Councilwoman Mason. Motion carried 6 – 0; Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt voting “yes”; Council Member Tremaine absent.

4. Public Comments:

Mr. Michael Kerr stated he is speaking about keeping the Ambrose Pool open by using Keller Canyon Grant funds. He stated considering it would take \$75,000 to get the pool upgraded and repaired in order to re-open, and the Park District has this money but the Board has decided to keep the money for the new pool; the problem being with this economy it might be a long time before they get enough funds to build a new pool, and this is already the second year the pool has been closed. He stated he believes this is one of the major concerns and irritants of people in our community especially for those with families and kids, and if the public were better informed and not kept in the dark about the funds available through the Keller Canyon Grant, that opening the pool would be one of the community's first priorities. Mr. Kerr stated that on

behalf of the Bay Point community he is asking each Council member, as appointed leaders of our community, and the Park Board members, as elected officials, to take whatever action is necessary to request the necessary funds be allocated from the Keller Canyon Grant funds this year to immediately get the Ambrose community pool up and running as soon as possible.

Ms. Cynthia Garret introduced herself as a Lead African American Health Conductor, and stated she wanted to share about their program that does outreach to African American residents in Bay Point, Pittsburg, and some Antioch areas; to make sure they have health coverage, help them with medical and dental appointments, provide health education to the community, and offer a social empowerment support group, located in the Pittsburg and Bay Point health clinics. She stated they encourage their participants to go to the doctor as many fall through the cracks and don't seek medical care; they educate on diabetes, chronic diseases, HIV, Aides, etc.; they also celebrate black history, the rights of health, and also put on a big Thanksgiving and Kwanza events. She stated they also participate in Fit Fest, coming up June 5th, and also in Unity in Community coming up on June 26th.

5. Agency Reports. The MAC received the following reports:

a. Contra Costa County Sheriff's Department – Lt. Victor Fernandez

Lt. Fernandez distributed copies and reviewed the statistics for the month of May, including comparisons from last month and the same time last year.

Lt. Fernandez stated residential burglaries increased significantly at 22 from last months 7; also armed robberies at 6 from last months 1. He stated he was going to talk to their crime analyst to address these increases, who can give them a 'picture' of what occurred last month regarding time frames, similarities, to give them a work-up so they can deploy more efficiently and also look at getting additional resources from the county J-team.

Councilwoman Kopitar reported electrical tools being stolen from her property from painters working on her house, and also 2 guys trying to get her dog into their car when the dog had just gotten out.

Lt. Fernandez stated that a lot of what is happening is because of the economy, but also the opportunity plays a part.

Councilwoman Zumwalt stated that looking at the stats from 2007 and 2008, they were significantly worse, so it would seem that whatever they are doing now it is improving.

Chairman Stevenson asked if there a problem with a specific house regarding the drug arrest that was made last month.

Lt. Fernandez stated he would have to look into the specifics of that incident and get back to them, that it could be one of a number of scenarios.

b. California State Highway Patrol

Officer Eric Brewer stated that in April there were 72 citations issued in Bay Point, 8 traffic

collisions, and 9 arrests for DUI made by the Highway Patrol; In May there were 81 citations issued, 11 traffic collisions, and 7 arrests for DUI. He stated these numbers are about the norm for this area, way down from the holiday season, but pretty normal for this time of the year. Officer Brewer stated citations given will be going up this month with the “Click It or Ticket” campaign going on and the warm weather.

Councilwoman Zumwalt asked about the promised trailer that digitally reflects back a driver’s speed, how they had talked about putting it on Riverside Drive and it hasn’t been seen.

Officer Brewer stated that it is broken, but that he believed Bay Point was second on a priority list for when it is repaired; the good news is that there is a trailer that belongs to the CHP but was assigned to county that will be coming back to CHP, and it is in much better condition.

Councilwoman Zumwalt also thanked Officer Brewer for coming out for the Bay Point parade and helping out with that.

Councilwoman Garcia suggested placing the Law Enforcement Officers’ reports sooner on the agenda as not to occupy their time unnecessarily waiting for their time at the meeting.

Officer Brewer stated the way the agenda was tonight was fine, but there had been a few times in the past where they were way at the bottom of the agenda, and he would prefer not being towards the end.

There was a discussion regarding the placement of the speed trailer.

c. Redevelopment Staff Report – Maureen Toms

Old Business:

· **Enterprise Zone**

Ms. Maureen Toms stated the City of Pittsburg and the county received conditional approval for an Enterprise Zone, and they are still working on submitting all of the reports that they need to up the Department of Housing and Community Development. She stated one piece of that is looking in each of those jurisdictions for census tracts that have a population at 50% or below the county median. She stated they are taking to the Board of Supervisors on Tuesday a targeted employment area, meaning that businesses in the Enterprise Zone in Pittsburg and Bay Point can hire people, an additional class of people, and get a tax credit. Ms. Toms stated because they are able to capture any census tracts within our jurisdiction, they are going with the City of Pittsburg and looking at anywhere in the unincorporated counties i.e. North Richmond, Rodeo, Crockett, that would also be a part of the targeted employment areas for this Enterprise Zone, opening up the ability for businesses to get tax credits for a wider number of new employees.

· **Replacement Housing as part of the Orbisonian Heights land acquisition.**

Ms. Toms stated this is for the youth group home the agency has acquired and is looking at doing a replacement on Bel Air Lane, behind the Jehovah Witness’s church; as the agency owns a piece of property there and had anticipated doing a replacement housing, so they are in the discussion phase with that group on that development.

There was some discussion regarding the vacant properties on the Orbisonian Heights area, including Bibet, a drug rehabilitation program having relocated to Pittsburg, and the group home for youth, currently relocated for a two year period to Pleasant Hill and then coming back to Bay Point.

Supervisor Federal Glover General Report – Ed Diokno

- Mr. Ed Diokno of Supervisor Glover's Office stated in response to a MAC members suggestion, the Supervisor thinks a poet laureate for Bay Point is a fine idea and would be a good project for the MAC to tackle if it so wishes.
- Mr. Diokno stated the Supervisor's Town Hall on May 24th about the safety improvement to Bailey Road went well, with about 23 persons in attendance. He stated the Town Hall centered on the recommendations of the County staff and its consultants; comments from previous planning meetings were taken into account and incorporated into the proposal. He stated the general feeling was it was well received.
- Mr. Diokno stated Supervisor Glover's other Town Hall on May 26th on the re-entry of inmates back into the community also went well, with over 70 people attending that meeting at Los Medanos College. He stated the return of the inmates is of great concern, but the fact of the matter is – they are already here.

Mr. Diokno directed the Council Member's attention to the handout distributed earlier and stated that it gives them an idea of how many parolees are in the community of Bay Point (38). He stated using these countywide numbers; they represent about 1% of the parolees in the entire state. Mr. Diokno stated the county is creating a network of services, county agencies, and nonprofits to help lower the recidivism rate of the population; having already established a Task Force addressing the needs of the formerly incarcerated and filling the service gaps that might show up. He stated if the services are not addressed, more than likely the recidivism rate would remain at about 75%.

- Mr. Diokno stated meanwhile, last month the Council had heard a presentation about gangs in Bay Point by students of Riverview Middle School; they had said perhaps up to 37 gangs exist in Bay Point. He stated, coincidentally, plans for a Gang Summit sponsored by the Supervisor have been underway and it will be held on October 9th, at Deer Valley High School. Mr. Diokno stated its main target audience will be the parents and youth from 12 to 19 years old; the summit will also be open to any teachers who might want to attend to get information about gangs in the area and the resources available in the community to combat gangs. Mr. Diokno stated one of the requests of the Riverview students was to get more information about gangs to their school faculty; so any teachers from the Bay Point schools are more than welcome to attend. He stated more details about the Gang Summit will be available as the plans are developed.

Councilwoman Zumwalt asked Mr. Diokno if he knew anymore about the Pittsburg Disposal containers they had be asking about.

Mr. Diokno stated there is a difference in interpretation between the county and

Pittsburg Disposal; county doesn't feel there is anything blocking the change in service and Pittsburg Disposal evidently, for reasons of their own, has not implemented the changes mentioned.

Councilwoman Zumwalt asked if there was nothing that could be done to put pressure on them; it is environmentally friendly to make the recycle containers available and encourage recycling.

Mr. Diokno stated Supervisor Glover does have a meeting scheduled with both garbage companies, and he will make sure this issue is on the agenda.

Councilwoman Zumwalt stated she feels very strongly about this issue, that one garbage service in Bay Point should equal the other's services, and this has been promised to them for years.

Mr. Diokno stated if they would like the county staff person in charge of the garbage companies to come before the MAC, he could ask him to do that.

Councilwoman Mason stated if Mr. Diokno would keep her updated on the Gang Task Force she would keep passing it along to Mrs. Martin at Riverview, so the kids will know they were heard and know we are moving forward on it.

Chairman Stevenson asked about the number of parolees in the community and if there was going to be an increase in probation and parole officers when more were released.

Mr. Diokno stated no, that what they are doing are those parolees who are least likely to reoffend will be taken off supervision; but that will mean they will have the same number of parole officers supervising fewer parolees.

There was a discussion regarding existing resources for returning inmates, the Task Force's work, and the differences in services between East and West County. Mr. Diokno explained the development of an East County Coalition Collaborative of service providers to share information because what they found was east county depended more on the county than nonprofits and were less organized with their nonprofits, now they are sharing information.

Councilwoman Kopitar asked when these people came into Bay Point

Mr. Diokno stated it was over several years.

Mr. Diokno stated that ideally all of these services would be in place before the new releases come out, and that is what they are aiming for; they should a strategic plan by the end of the summer and by the time they start the early release to be better prepared.

There was a lengthy discussion regarding the State's early release program.

6. Presentations Presentations were made by:

a. Michael Baroman-Coggins, Executive Director of Loaves and Fishes and Pastor Dillingham of the Community Baptist Church

Mr. Michael Baroman-Coggins of Loaves and Fishes stated he would say a little about the program and how they became involved at the church. He stated Loaves and Fishes is an agency that has been around for 27 years; the two founders saw people eating out of garbage cans and started out as a brown bag program making and giving out sandwiches, and extended to making meals. He stated it has now grown into Loaves and Fishes of Contra Costa of 27 years with a main kitchen in Pittsburg currently doing about 650 meals a day for the different sites they serve; and they have a brand new Pittsburg dining room at the St. Vincent de Paul thrift store opening July 2010, and will probably be up to 800 meals a day. Mr. Baroman-Coggins stated they have a lot of their food donated by Costco, Luckys, the Danville farmers market and they have volunteers that go pick up produce that local farms donate; the Food Bank also gives them food. He stated they serve anyone; all you have to do is get in line.

Mr. Baroman-Coggins stated they became involved with the Bay Point Community Baptist church through two ladies that were attending an inter-faith council meeting and met the Operations Director of Loaves and Fishes. He stated what they do now is a partnership site with Bay Point which means they provide the food, they take it to the site, and the church actually serves the food as part of a ministry of the church; at other sites they have their own staff on site for serving too. He shared about some of the other sites, from Oakley, to Martinez, to Walnut Creek and Concord.

Mr. Baroman-Coggins stated what he really wants people to know is that he is a hands-on-guy; he had talked to Ms. Toms, shortly after the program began, about some concerns residents had, and did some things to try and mitigate that; unlike most Executive Directors he will be right there trying to fix it when there is a problem. He stated he also has an Operations Manager and a Volunteer Manager who are also available to come and help out.

Mr. Baroman-Coggins stated he wanted to share how great the need is in Bay Point; yesterday [Memorial Day holiday] they sent out their meals and at almost every site except Bay Point they were down by two-thirds, and they found out that in the other communities somebody was doing something for the holiday, providing food and services for the homeless, and Bay Point doesn't have anything like that for their homeless, and 78 people were fed yesterday on Memorial Day. He stated he is very interested in hearing concerns, working on them, and getting more people involved.

Councilwoman Mason asked about the time lunch is served in Bay Point.

Mr. Baroman-Coggins stated 11:00am – 12:45pm, Monday through Friday; he also added they are not open on Thanksgiving, Christmas, New Years Day, or the 4th of July.

Pastor Dillingham stated that before they had begun this process of partnering with Loaves and Fishes, they were as a church doing some of this themselves during November and December; having given out 375 boxes of food in November, as well as coats; and having a vision of doing this on a more regular basis during the rest of the year.

Pastor Dillingham stated we have all heard of and know about the issues, concerns and problems in the Bay Point community and one of the things they wanted to do with Loaves and Fishes is provide a hot meal as part of the church's mission and ministry. He stated one of the things he had done before any of this was to go out into the community, maybe not meeting everybody, but asking if they came to a church what kind of services did you see the church providing; as it made no sense to him in having a church called Community Baptist church and not trying to meet the needs of the people in that community. Pastor Dillingham stated instead of establishing ministries based on what he thought was needed, he based it on some of the input and information he had received from the people he had talked to.

Pastor Dillingham stated he learned from some neighbors some concerns they had, and he has tried to address those; he went door to door passing our flyers and inviting everyone to a community assessment meeting at the church to hear concerns, and problems neighbors had with the Loaves and Fishes feeding the homeless, and what kind of things the church could do and partner with community to address some of the issues. He stated at the meeting last night they shared how they were working to address the concerns but also to address the need in the community to feed the homeless and hungry; in these days no one knows what kind of help they themselves may end up needing. Pastor Dillingham stated what they came away from the meeting with last night was he wasn't sure about the permit some thought was required, but as a church, as Christians and believers, they are mandated to help meet the needs of those less fortunate. He stated he believed they had a pretty good session, a good discussion and exchange, at last night's meeting.

Pastor Dillingham stated he can't control what happens down the street, but he and his staff make sure that on the church premises, during their time of operation, they don't have any issues, and when they have had problems they addressed them. He stated he has also sat down with participants during their lunch and told them they were jeopardizing this program if negative behavior continued.

Councilwoman Zumwalt inquired about something in their literature regarding not serving anyone under the influence of drugs or alcohol, and what their procedure was; were they asked to leave?

Pastor Dillingham stated they are told to leave. Mr. Baroman-Coggins stated there is a board with the rules posted at the site that covers a lot, and if you break the rules you are asked to leave, and if the behavior continues they will not serve them, ask that they not return, and when necessary the Sheriff's are called. Pastor Dillingham stated that since starting in January he was aware of one incident needing the Sheriff.

Councilwoman Garcia commended the church for the good work they have done in past with giving to the community, and for their present work. She stated she knew personally some people who benefitted from their programs.

There was a discussion regarding the numbers of different kinds of people, not just homeless, that use the Loaves and Fishes service; those numbers are up 54% at all sites from last year, and most of those are the elderly and families with children. Also discussed was the "Allowable Use" of this program at the church; no additional permits required.

During a lengthy public comments period, the following residents spoke in support of the Loaves and Fishes program at Community Baptist church; Tom Malafronte, Dorothy Siegfried, Mary Ann, Dierrica Divens and Norma Siegfried. The following residents opposed the Loaves and Fishes program being located at the Community Baptist church; Mark Sullivan, Bonnie Delgado, and Sue Lehman.

Mr. Baroman-Coggins stated all of their sites except one are located in residential areas.

Chairman Stevenson suggested and encouraged the developing of the relationship between the church and the residents in the neighborhood, keeping communications open, and working together to address problems as they arise as being the way to go.

7. Items for Discussion and/or Action

a. Any Consent Items removed from Consent calendar.

None

b. Consideration of a County File #LP10-2036: Applied Wireless Consulting (Applicant) and Robert C. and Evelyn P. Johnson (Owners) – This is a request to renew County File # LP00-2040, an existing T-Mobile telecommunications site to allow minor equipment upgrades, including new equipment cabinets and installation of new fiber optic cable.

Ms. Maureen Toms stated this is an amendment to a Land Use permit; adding a cabinet to an existing wireless facility. Ms. Toms stated that when received in the mail, these items need to be put on the agenda because the Zoning Administration won't hear it unless they get comments from the MAC. After some discussion it was decided:

Motion made by Councilwoman Mason to approve County File #LP10-2036 with requested changes. Seconded by Councilwoman Magleby. Motion carried 6 – 0; Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt voting “yes”; Council Member Tremaine absent.

c. Recommendations and approval on what to do with remaining funds in the budget

Councilwoman Garcia reviewed the current budget balance with the Council; including the Council having approved using up to \$3,900 on the newsletter and then Redevelopment through Ms. Toms having money to help with the newsletter also, resulting in a balance at the end of this fiscal year.

Councilwoman Magleby asked Mr. Diokno if it was “written in stone” that the money had to be spent and couldn't be carried over to the next year.

Mr. Diokno stated yes, it had to be spent.

Councilwoman Magleby stated she didn't understand why they had to fritter away the

money, that it seemed ridiculous to her, and that it is her appeal and plea that the money should go to a newsletter coming up after June 30th.

After a lengthy discussion regarding what to spend the balance on, including promotional bottled water for joint MAC meetings; writing a check now to Ready Print for an upcoming newsletter; putting any extra money towards children and the schools; prepaying Ambrose for the rest of the year leaving money towards the newsletter next year, replacing some of the street banners on Willow Pass Rd.; and paying Ambrose for an additional hour; it was decided:

Motion made by Councilwoman Zumwalt to approve spending \$966.00 (1/3) of remaining money on promotional water bottles or other promotional items, and the balance (2/3) of the money on new street banners. Seconded by Councilwoman Kopitar. Motion carried 6 – 0; Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt voting “yes”; Council Member Tremaine absent.

8. Committee Reports The MAC received the following reports:

- **Code Enforcement – Stevenson and Tremaine**
Nothing to report – time restraint
- **Community Wellness Program - Mason**
Nothing to report on Community Wellness – time restraint
- **CAP - Kopitar**
Nothing to report – time restraint
- **Bay Point Cleanup Day - Garcia**
Councilwoman Garcia reported that everything went very well, that she was by herself and more help would have been better, but things went well.

9. Members’ Comments

a. Bay Point Chamber of Commerce – Magleby

Nothing to report – time restraint

b. Unity in Community - Mason

Councilwoman Mason stated that Unity in Community had been announced by Ms. Cynthia Garret earlier in the meeting and flyers were available on the back table.

Chairman Stevenson asked if the MAC was going to have a table at the event.

Mr. Diokno stated that the MAC members, anyone interested in volunteering, were welcome to come and sit at Supervisor Glover’s table.

10. Correspondence.

Councilwoman Kopitar reported on the following correspondence:

- Letter from Frank Gambali; pleased to receive newsletter in mail
- Correspondence was made available for viewing.

12. Future Agenda Items.

- a. Renaming Streets – Councilwoman Magleby
- b. Follow-up with County Staff in charge of garbage companies on getting additional recycle bins (as promised) from Pittsburg Disposal – Councilwoman Zumwalt
- c. Disproportionate Minorities Act – Elaine Prendergast of Center for Human Development per Councilwoman Mason
- d.

12. Adjourn to meeting scheduled for Tuesday, July 6, 2010, 7:00pm, at Ambrose Community Center Board Room.

This meeting record is provided pursuant to Better Government Ordinance 95-6, Article 25-2205(d) of the Contra Costa County Ordinance Code.
